

Topic: Single-sample rule-out of NSTEMI-are we ready for prime time?

Time: 17 May 2023

This webinar will give an overview of how high sensitivity troponins may be used for rule-out and rule-in of non-ST elevation myocardial infarction, including data on safety and efficiency. The laboratories role as facilitator in implementation of current recommendations for measuring troponins in the emergency room will be discussed. The webinar will also describe long-term risk in the heterogenic group of patients who do not have acute myocardial infarction and how cardiac markers may help identify individuals who could benefit from a closer follow-up.

Schedule:

Talk 1- "What is the current evidence for safe single sample rule-out of NSTEMI" Dr. Yader Sandoval

Talk 2- "Myocardial infarction ruled out - so what? Follow-up and evaluation of long-term risk" Prof. Nicholas Mills

Talk 3- "Implementation of rule-out and rule-in algorithms; what should the laboratory do?" Prof. Paul Collinson

با سلام و احترام،

نظر به اینکه فدراسیون بین المللی بیوشیمی بالینی و آزمایشگاه پزشکی IFCC در تاریخ ۲۷ اردیبهشت ۱۴۰۲ (17 May 2023)

ساعت ۱۶:۳۰ اقدام به برگزاری وبینار در رابطه با "Single-sample rule-out of NSTEMI-are we ready for prime time?" نموده است، تمامی همکاران عزیز که علاقمند به حضور در این وبینار هستند با مراجعه به لینک معرفی شده توسط فدراسیون امکان حضور در کلاس مجازی را خواهند داشت.

✓ گواهینامه حضور در پایان وبینار به تمامی شرکت کنندگان ارائه خواهد شد.

جهت ثبت نام به لینک زیر مراجعه فرمایید:
